

Dear Sir,

The Constitution and its Bill of Rights are worthless scraps of paper, when placed in the hands of agents of government.

As a victim of political retaliation by Lyndon Baines Johnson (I am one of the "six or seven he would never forgive."), I have suffered attempted bribery, threats, destruction of in excess of \$100,000 merchandise and the resulting destruction of the business, a complete failure of Due Process of Law, a poisoning that has resulted in permanent disability of a peculiar nature, death threats to self and family, and a mockery of justice all the way to the U.S. Supreme court after the trial by jury was dismissed two weeks before trial by the State attorney general after 12 years of legal effort to bring it to trial.

Two assassination attempts resulted in the termination of each felon; the second was a Kennedy assassin and the evidence found in his Dallas residence implicated others and blows the Warren report to bits. This information has been known to the FBI since 1973, yet suppressed. A third attempt put 5 bullet holes in my business, but those responsible were warned that any further attempts would be met with swift, irreversible retaliation, and no further attempts have been made to my knowledge. They have been fully warned of the dire consequences which would result if any further attempts are tried, or should such result in my demise.

This story will:

- Sell more copies than any story ever printed.
- Result in each of us being sued by certain named individuals.
- Bring me before a Federal grand jury, and probably indicted.
- Probably bring about my assassination.
- Reveal the connection between government, Parties, and organized crime.
- Reveal the reason(s) for the death of Pres. John F. Kennedy.
- Reveal the failures and cover-ups within our system of government.
- Open an investigation which will make Watergate look like a Sunday school picnic.

I have now exhausted every legal and Constitutional procedure within our system of government, including Petitions for Redress to President(s) and Governor(s), and the latest Legislature, which told me that it had granted Redress in the form of a second waiver of Immunity to sue the State of Texas. However, it DID NOT, and the entire matter will eventually reach the Human Rights branch of the United Nations as violation of human rights by the State of Texas and the United States of America.

~~How much will you offer for this story? Exclusive? Printed rights only?~~ I have endured this mess for 15 years, and it has cost me my merchandise, business, health, marriage, and faith in this government.

Since the story covers a period of 15 years, it ties together a lot of facts which were not foreseen previously. The very least condensation would probably be to about 3-4 pages in a magazine and about four pages in a small newspaper. Some of the facts might be immaterial to the reader, but this would have to be determined by an editor, not myself. I believe that it is time for the people of this nation to learn the path to destruction which our present system is leading us, a path far from that which was delineated in our original Republican form of government.

"Col. Wm. B. Travis" C.A.T.

In the event of my sudden demise, this is to inform you that tapes of this series of events will be given for safekeeping to one of the greatest patriots in this state for broadcast, so that all citizens may learn what their government has concealed from their knowledge, and how it acts to suppress those who try to expose their infamy.

I have the missing pieces
to put the puzzle together and
solve the JFK plot before the
20th arriv. 3 plots, not
one, cause the confusion. There
were also 2 in Austin, 2 in
San Antonio, so the President
never had a chance.

I have survived 2 (or more)
attempts, and with my disclosures,
know they will try again. If
they succeed, my command will
retaliate in a manner that will
let all criminally-inclined know
that they cannot escape our
wrath.

"
Col. Wm. B. Travis 4/87
"

Confederate Army of Texas

P.S. THE GEMSTONE FILE is amazingly accurate,
even if declared fictional. (OVER)

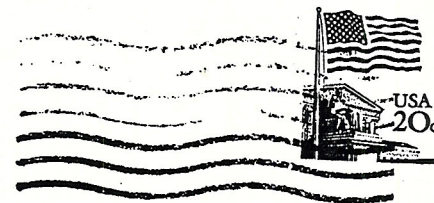

My mail is intercepted, phone
often tapped, but try sending
your reply in plain envelope,
or in some friend's "junk mail"
envelope, addressed to "Boxholder",
if you desire info.

The FBI has most of my
info, but will deny receiving any
of it, though it is in a Civil Rights
Complaint against the State of Texas
and U.S. Govt.
